INFORMATIONAL MESSAGE

The National Bank of Kazakhstan has started publishing financial indicators for credit partnerships and pawnshops

September 16, 2021

The National Bank of Kazakhstan (NBK) announces the beginning of the publication of financial sector indicators for credit partnerships and pawnshops. This information will be posted on the NBK website on a quarterly basis.

The new section includes a consolidated balance sheet and a consolidated profit and loss statement, information about the main financial indicators (assets, liabilities, capital) and the structure of issued micro-loans.

This information allows us to provide full coverage of the published statistics of all organizations involved in microfinance (microfinance organizations, credit partnerships, pawnshops).

Financial indicators can be [found](#) in the section "Performance of financial sector/Microfinance organizations" in the "Statistics" rubric on the website of the National Bank of Kazakhstan.

Media representatives can get more detailed information by phone:
